Celebrating 30 Years 1983 - 2013

Our Clients receive original graphic designs. Many of our designs are from our nationally recognized designer, Scott Prentice. Scott has been designing commercial logos and graphics for over 30 years.

High Kastle Entertainment is a great example of how Territory Media designs logos. First we want you to know how excited we are that you are even considering our company. Our logos are custom crafted for “your” clients. We believe, sometimes as hard as it may sound, we don’t design to make you happy, but instead design to please “your” clients. Simply put, we believe if your clients are happy then you will be happy.

Our Logos must be functional and appealing. We believe a logo should be recognizable in .32 second.
